

# PHAROS 565e

## Your affordable, feature-packed handheld solution!

***The Pharos 565e™ is a very affordable, full-featured, rugged handheld computer designed with you in mind. The Pharos 565e puts all of the best features of mobile computing in your hands, including:***

- ▲ **3.5" QVGA Screen**
- ▲ **Wi-Fi**
- ▲ **Bluetooth® Compatible**
- ▲ **GPS**
- ▲ **IRDA**
- ▲ **Extra Rugged Case**
- ▲ **Windows Mobile 6.5**

### OVERVIEW

We are proud to introduce the Pharos 565e handheld as our ruggedized mobile device that can take on even the roughest conditions. Designed to survive heat, humidity and drops of up to 5 feet (1.5 meters), the Pharos 565e pairs durability and functionality into one sleek handheld. Pharos 565e has many of the favorite features of traditional PDAs including Wi-Fi, GPS and Bluetooth.

### SUPERIOR PERFORMANCE

Pharos 565e runs on the powerful and proven Marvell 624MHz processor and boasts immediate response times with applications. Paired with the Microsoft Mobile 6.5 operating system, users see an immediate difference in performance. The 3.5 inch screen is highly durable and is capable of performing in even the poorest light conditions.

### DURABILITY

Research studies have shown that investing in rugged mobile devices versus consumer grade models pays off. The cost of ownership has been shown to be reduced in as little as two years. If your goal is minimizing the constant replacement of handhelds due to damage, look to the Pharos 565e to outperform. Dirt, high humidity and extreme temperatures are no match for this handheld's airtight design.

### OPTIONS TO HELP YOU

The Pharos 565e handheld from ARS includes both a handstrap and silicon case to give you even more utility. In addition, there are numerous options such as travel kits, spare batteries and stylus.
